already disproven by FBI's work - should have never been in Miami or Cuba as letters appeared and was not a man known from same typewriter used to write RFK, sender name by Mario del Roario, signed same ink + pen (although Bolen admitted the Pedro Charles letter was a hoax, it got the first + the most news play on the words released)

Post 12/8/77 - Bolen appears to press release on CBS - he had already leaked it and pretended otherwise

likewise gave major play to the Police Charles letter as evidence of a conspiracy by Castro to kill JFK. I was sent a facsimile of the letter only of the FBI's translation not ideal if did as FBI translation it also does not report that the FBI from the outset knew the letter was a hoax at the time Moore used it to theorize about a conspiracy - back to the White House

While in its second-day story for afternoon papers of 12/8/77 (NYP)

6) AP took the "Pedro Charles" Roxas

story to task, it did not admit having misled a great many if not most Americans with its initial reporting - justified as that reporting was from the FBI records AP had seen to the time the story was written. AP also went ahead to dig and dig to write about the hoax as though it were not a hoax:

"Many ~~other~~ serious paths led toward Fidel Castro, communist leader of Cuba. The FBI obtained a letter from Havana to Oswald mentioning money payments & Oswald's ability to shoot out a candle at 50 meters"

One of the "serious paths toward Fidel Castro"

7) mentioned in this story is

"... the fact that Oswald had been arrested in New Orleans for distributing pro-Castro literature."

Oswald was not arrested for distributing pro-Castro literature. He was arrested because he was assaulted by one of three pro-Castro Cubans - the one now known to have served the CIA. There is no comment in between this and Castro. In fact, the Cuban Embassy in Mexico demanded Oswald be shot as soon after this arrest & before the assassination

Lesson in Thisphy used in all but one other story I have seen. Here is this one: The FBI did not give the letters to The W.C. because it could not authenticate them.

First of all, the Commission not only had the letters - it published many them. Secondly, the only value the letters could have lies in who would have perpetrated such a hoax

~~The News had a separate story on the Pedro Charles matter, "Lie Letter Hunted at Dark Fate"~~

Aside from FBI interoffice memoranda - which formed at the dead/known only - contained all that the press used of those 40,000 pages
